

EGS International are recruiting SURVEY ENGINEERS

Location: Bordon, Hampshire

Position: Full time, Permanent

Salary: Dependant on experience

Due to an increased workload we are looking for survey engineers to join our expanding engineering department. This is an exciting opportunity to be a key member of the team using cutting edge technology and software. The role has both offshore and onshore elements which will allow successful candidates to be part of a variety of different projects, with great opportunities for travel around the world.

Offshore you will be part of a hard-working and dedicated team working on complex projects in global locations. Onshore you will form part of multidisciplinary team delivering our client focused products using industry leading techniques while contributing to the innovation and improvement of workflows within the department.

Requirements

- Minimum HNC in Electronics (or equivalent).
- Knowledge of computer IT, including networking, fault finding to component level, knowledge of the use of test equipment and techniques
- Experience in soldering, testing and assembling electronic systems
- Ability to work as part of a team, a good communicator with excellent organisational skills. Interest in hands on work and willing to learn new skills
- Travelling and working on site on vessels will be required including over weekends and for extended periods 4+ weeks
- A full driving licence is required

You must live or be willing to relocate to a commutable distance of the EGS office in Bordon, Hampshire.

Joining the EGS team will allow you to develop your skills and knowledge within the marine survey industry and provide you with excellent opportunities to actively develop your career through mentoring and professional training. EGS offer you a competitive salary, including company pension and the opportunity to join a professional body such as the Geological Society.
