

Survey Launch Ming Jai

The Global Force with a Personal Touch

Survey launch Ming Jai is the daughter-craft of our research vessel Bold Explorer. This versatile shallow draft vessel is fully equipped for near shore hydrographic, geophysical, oceanographic and environmental surveys.

- Conduct inshore and shallow water survey
- DPGS and computerized navigation systems
- Dual frequency single beam and multi beam echosounder
- Geophysical systems including side scan sonar system (SSS) and sub-bottom profiling system
- Marine magnetometer
- Seabed sampling
- VHF communication facilities

NAME	Ming Jai	TYPE	Survey Launch
YEAR BUILT	1993 / Converted 2015	MOTHER VESSEL	R.V. Bold Explorer
LENGTH OVERALL	8.01m	BEAM	2.9m
DRAUGHT	0.54m	GROSS WEIGHT	3.5
HULL MATERIAL	Aluminum	ENGINE POWER	2 x 115hp (Mercury Four Stroke Outboard Engines)
